Director Harve Soucy

Director Rita Normand

Director Helene Severyn

**OFFICE HOURS:**  
**Monday to Friday**  
**12:30—4:00 pm**  
**Doors are Open!**

## News and Views from President Sonja

The autumn colors are beginning to show telling us that the hot days of summer are winding down and fall is fast approaching. September reminds us that many clubs are resuming their activities and getting back a sense of routine. This also applies to us at the Seniors Drop In Centre as we start out with our monthly pancake breakfast on Sunday, September 2nd—9:00 to 12:00 noon. Spread the word around and come and join us for breakfast. Cribbage, whist, bridge, and floor shuffleboard continue as usual. Our floor curling will not begin until approximately the third week of October.

Our fundraising Harvest Supper and concert is on Saturday, September 22nd. We have changed the format of the Harvest Supper somewhat by not

having a dance but instead, a concert by “The Great Plains Saskia and Darrel”. We will also have some silent auction items donated by local businesses and folks for you to bid on as well as the usual 50/50 draws.

Our menu has also changed. This year we will be serving roast beef, chicken, mashed potatoes, cabbage rolls (made by our ladies), veggies, salads and desserts. Yum! Tickets are \$40.00 each, available at the office or from any Board member or at Tellier’s Guardian Drugs. Come support your Centre and have an evening of entertainment and good food. Bring your family and friends.

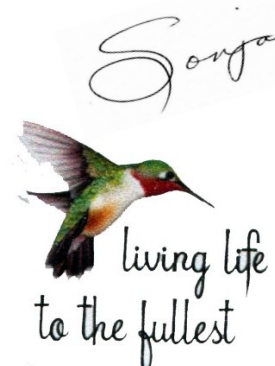

We certainly hope that the weather co-operates and that 47th avenue will soon paved and our wa-

ter pressure back to normal and we can all be happy!

Our next Board meeting is Tuesday, September 11th at 7:00pm.

Remember to check out our bulletin boards for upcoming events. Keep yourself informed!

The children are back in school so we must take extra caution to watch out for them as we drive the streets and roads.

# The September Equinox-Sunday, September 23, 2018

---

*There are two equinoxes every year – in September and March – when the sun shines directly on the equator and the length of day and night is nearly equal.*

## **Opposite Sides & Seasons**

Seasons are opposite on either side of the Equator, so the equinox in September is also known as the autumnal (fall) equinox in the Northern Hemisphere, and is considered the first day of fall.

In the Southern Hemisphere, it is known as the vernal (spring) equinox and marks the first day of spring.

## **Shorter Time Between Moonrises**

The full Moon closest to the September equinox, the Harvest Moon, is astronomically special. This is because the time between one moonrise to another around this period becomes shorter.

## **Prepare for Northern Lights**

As the September equinox rolls by, the chances to see the aurora borealis display increases for those located at high Northern Hemisphere latitudes. According to NASA, the equinoxes are prime time for Northern Lights – geomagnetic activities are twice more likely to take place in the spring and fall time, than in the summer or winter.

# **BONNYVILLE SENIORS DROP IN CENTRE FUNDRAISER**
